Career Focus	React Developer.
Summary	I graduated from Babcock University, Ilishan-Remo, Nigeria with a BSc in Computer Science (Second Class Upper). I am Knowledgeable in numerous programming languages such as C, C++ and Java. I am also an intermediate level Full Stack Developer. I develop front-end programs using React.js and back-end is developer using mainly node.js along with MongoDB database and ejs. I am also a Games Design Developer.
Work Experience	CENTER FOR TECH (Jan 2016 – Jun 2016). Internship position and signed on as a web developer and mobile game developer. I was involved in a number of projects, most of which involved mobile game development. During which I developed a mobile game called (The platformer game).
	BABCOCK UNIVERSITY PROJECT TEAM (Jun 2019 – April 2020). I was part of a project team which developed a Student Academic Management System. The frontend was written using html, css and javascript(node.js) while the backend was written in python.
	BOOKER GLOBAL SERVICES LIMITED (Dec 2020 – Jan 2021). Hired as a freelancing full Stack developer to work as a backend developer on their project.
	HIGH TECH SYNERGY (2022 – Current). Fulfilling a role as a software developer. Developing new web applications and implementing and maintaining front-end web components. React used as the main front-end tool.
